SUBWOOFER

Product Information

SUBDRIVE12 is a band-pass subwoofer that uses a loudspeaker of 320 mm (12") with Neodymium magnet and 100 mm (4") coil. Low distortion and high dynamic distinguish this product. The cabinet is constructed from birch plywood of 15 mm and anti stretch polyurethane finished. SUBDRIVE12 is a reflex subwoofer designed to reinforce the extremely low range frequency of small portable equipment in live music or small installations in disco bar, pub etc. The cabinet extremely compact makes it easily transportable and versatile for portable applications. SUBDRIVE12 surprises for his big punch and high dynamic response at the extreme low frequency.
